Follicle Measurement and Aspiration
- Reproductive Medicine –  
Transfer of Embryos
- Gynecology Procedures
- OB Scanning –  
1st, 2nd, and 3rd Trimester

Automatic measurement with Follicle-Assist

# Personalize Your Workflow and Simplify Procedures

- Excellent image quality and needle visualization for fast and efficient procedures.
- Automatically capture and record measurement with Follicle-Assist.
- Access to a range of BK's high-performance, sterilizable transducers for advanced procedures.
- Integrated battery and ergonomic design for mobility in your procedure room.
- Access to advanced technology and performance modes: Vector Flow Imaging (VFI), Needle Enhance, DICOM, and WIFI.

Personalize the unique interface for quick evaluation and treatment of your patients.

Sealed glass interface makes cleaning and infection control fast and efficient.

Custom-fit clinical design. Adjust monitor orientation to suit your needs.
